

Welcome at Aviculture Europe

Dear reader,

You are about to read the first edition of a brand new digital magazine, called Aviculture Europe, specially written for poultry-, pigeon- and waterfowl lovers all over Europe and far beyond. The name 'Aviculture' is an old and very often used name, still we have chosen to adorn our new magazine with this name, as it will be recognized and understood in every language. We are convinced that this unique magazine will contribute to international friendship and further promotion of our beloved breeds.

Our international team of inspired and enthusiastic editors will guarantee a quality magazine, which you will be sure to read with pleasure and interest.

In every issue you will find what you like to read best:

Well written articles about the History of the Breeds, tips about keeping and breeding, complete with breeder's interviews and details from visits to (inter)national exhibitions of Poultry and Pigeons etc.

Because the Magazine is in digital format we can produce it in full colour throughout, all articles delivered with lots of beautiful photos.

At the moment, our magazine is available in the Dutch and the English language; in due time there will be a French, a German and a Spanish version as well.

We hope you will be pleased with this free promo edition, and to welcome you as a subscriber.

Aviculture Europe is a bimonthly magazine and the subscription price per annum (6 editions) is only € 11,45 (euro-zone), £ 8,50 (GB) or US\$ 15,00.

See complete info at the home-page under: subscriptions.

Kind regards,

On behalf of VBC publisher and team of editors,

**Nico van Benten,
