POULTRY & PIGEONS – WANTED

Mottled Barbu D'Anver Bantams

My name is Jed Dwight & I live on the Isle of Wight in Southern England, United Kingdom. I am on the look out for Mottled Barbu D'Anver Bantams to import into the UK as the birds that are available here already are very closely related & in desperate need of new blood with only one person breeding them to my knowledge in England. It would be a great shame for this colour to die out in the UK & myself & a friend wish to try & stop this from becoming the case. We are looking for the best specimens possible as to keep good type which is so important when showing here, especially if you are selling them because they have slate coloured legs, as this is the wished standard in the UK. If you can help then please get in touch by phoning 01983 531391 or emailing grabthentip@aol.com All help will be very gratefully received. Many Thanks. Jed Dwight, 16 years old.
